Product description

This high-foam shampoo is a powerful detergent designed specially for Jet wash facilities. The intense spa aroma enhances the car wash experience with a sensation of cleanliness and freshness.

Storage

Keep tightly closed, avoiding exposure to UV rays and extreme temperatures. For more information, we recommend referring to the safety sheet.

Directions for use

Product designed for:

A dosing pump is used to apply the product in high-pressure Jet washes. The recommended dosing rate for hard water (400 ppm) is around 20 mL/min, trying to keep the pump at a percentage of between 25 and 30%. The volume of chemical product can be reduced slightly to around 15 mL/min when using purified water.
